

# CONTENTS

<b>Primitivo Acosta-Humánez, Kevin Esmeral, Osmin Ferrer</b> Frames of subspaces in Hilbert spaces with $W$ -metrics .....	5
<b>Murat Alp, Nurettin Irmak and László Szalay</b> Reduced diophantine quadruples with the binary recurrence $G_n = AG_{n-1} - G_{n-2}$ .....	23
<b>Fırat Ateş</b> On the efficiency of some $p$ -groups .....	33
<b>A. H. Bentbib and A.Kanber</b> Block Power Method for SVD Decomposition .....	45
<b>Muhammad Ahsan Binyamin, Junaid Alam Khan and Hasan Mahmood</b> A Classifier For Ideal Unimodular Singularities .....	59
<b>Nitima Chaisansuk and Josef Šlapal</b> On a product of universal hyperalgebras .....	71
<b>Hafız Fukhar-ud-din</b> Convergence of Ishikawa type iteration process for three quasi-nonexpansive mappings in a convex metric space .....	83
<b>Sana Hadj Amor, Erdal Karapınar and Poom Kumam</b> A new class of generalized contraction using $\mathcal{P}$ -functions in ordered metric spaces .....	93
<b>Jaroslav Hančl, Ondřej Kolouch and Lukáš Novotný</b> A Criterion for linear independence of infinite products .....	107
<b>Peter T. Ho, Lucy H. Odom, Bogdan D. Suceavă</b> On Chasles' Property of the Helicoid in Tri-Twisted Real Ambient Space .....	121
<b>H. Khatibzadeh and S. Ranjbar</b> Inexact Inertial Proximal Algorithm for Maximal Monotone Operators .....	133

---

<b>Dan Lascu, George Cîrlig</b> On the metrical theory of a non-regular continued fraction expansion .....	147
<b>Otilia Lungu and Valer Nîminet</b> Ingarden mechanical systems with special external forces .....	161
<b>Ghassan Malkawi, Nazihah Ahmad and Haslinda Ibrahim</b> A note on "The nearest symmetric fuzzy solution for a symmetric fuzzy linear system" .....	173
<b>Hemant Kumar Nashine and Brian Fisher</b> Common fixed point theorems for generalized contraction involving rational expressions in complex valued metric spaces .....	179
<b>C. Natarajan and S.K. Ayyaswamy</b> Hop Domination in Graphs-II .....	187
<b>Jose L. Ramirez</b> Some Combinatorial Properties of the k-Fibonacci and the k-Lucas Quaternions .....	201
<b>Eduard Rotenstein</b> A multi-dimensional FBSDE with quadratic generator and its applications .....	213
<b>Manuel González Sarabia, Carlos Rentería Márquez and Eliseo Sarmiento Rosales</b> Projective parameterized linear codes .....	223
<b>Shichang Shu and Tianmin Zhu</b> Spectral characterization and Schrödinger operator of space-like submanifolds .....	241
<b>Yaning Wang and Ximin Liu</b> Complete spacelike hypersurfaces with positive r-th mean curvature in a semi-Riemannian warped product .....	259
<b>Baoqiang Yan, Donal O'Regan and Ravi P. Agarwal</b> Positive solutions for singular nonlocal boundary value problems involving integral conditions with derivative dependence .....	279
