

CONTENTS

Hanan Alolaiyan, Basit Ali, Mujahid Abbas Characterization of a b-metric space completeness via the existence of a fixed point of Ciric-Suzuki type quasi-contractive multivalued operators and Applications	5
Arzu Cihan, Ayse Zeynep Azak, Mehmet Ali Gungor, Murat Tosun A Study on Dual Hyperbolic Fibonacci and Lucas Numbers	35
Carmelo Cisto, Gioia Failla, Rosanna Utano On the generators of a generalized numerical semigroup	49
Iryna Denega and Yaroslav Zabolotnii Problem on extremal decomposition of the complex plane	61
Jan Kuske and Ştefania Petra Performance Bounds For Co-Sparse Box Constrained Signal Recovery	79
D. Mallika, D. Băleanu, S. Suganya and M. Mallika Arjunan Existence results for fractional neutral integro-differential systems with nonlocal condition through resolvent operator	107
M. Marin, A. Chirilă, L. Codarcea and S. Vlase On vibrations in Green-Naghdi thermoelasticity of dipolar bodies .	125
Mohsen Khaleghi Moghadam and Renata Wieteska Existence and uniqueness of positive solution for nonlinear difference equations involving $p(k)$ -Laplacian operator	141
Elham Mohammadzadeh, Rajab Ali Borzooei Engel, nilpotent and solvable BCI-algebras	169
Saber Omid and Bijan Davvaz Hyperideal theory in ordered Krasner hyperrings	193
D. Piciu, C. Dan and F. Chirtes Some decompositions of filters in residuated lattices	211

Donal O'Regan	
Leray-Schauder type alternatives and extensions	233
Borumand Saeid and R. Koohnavard	
On residuated skew lattices	245
H. Shojaei, R. Ameri and S. Hořková-Mayerová	
Pre-semihyperadditive Categories	269
Vasile-Florin Uță	
Multiple solutions for eigenvalue problems involving an indefinite potential and with $(p_1(x); p_2(x))$ balanced growth	289
