

# CONTENTS

<b>M. Al Tahan and B. Davvaz</b> <i>H<sub>v</sub></i> -module of functions over <i>H<sub>v</sub></i> -ring of arithmetics and it's fundamental modules .....	...
<b>Mohammad Ashraf, Mohd Asim, Ghulam Mohammad and Washiqur Rehman</b> The study of $\mathbb{Z}_p\mathbb{Z}_p[u, v]$ -additive cyclic codes and their application in obtaining Optimal and MDSS codes .....	...
<b>Luminița Barbu, Andreea Burlacu and Gheorghe Moroșanu</b> On an eigenvalue problem associated with the $(p, q)$ - Laplacian .....	...
<b>Abdelhamid Bensalem, Abdelkrim Salim, Mouffak Benchohra and Erdal Karapinar</b> Existence and attractivity results on semi-infinite intervals for integrodifferential equations with non-instantaneous impulsions in Banach spaces ...	...
<b>R.A. Borzooei, M. Aaly Kologani, G.R. Rezaei and M. Mohseni Takallo</b> Closure operators on hoops .....	...
<b>R. Bru, J. Cerdán, J. Marín and J. Mas</b> An inverse LU preconditioner based on the Sherman–Morrison formula	
<b>Luigi-Ionut Catana</b> Stochastic ordering of discrete multivariate distributions. Algorithm in C++ with applications in the comparison of number of claims and extremes .....	...
<b>Hemen Dutta, B. V. Senthil Kumar and S. Suresh</b> Non-Archimedean stabilities of multiplicative inverse .....	...
<b>Thomas Ernst</b> Several new aspects on <i>q</i> -Horn and related triple .....	...
<b>Panagiote Ligouras</b> On the unrestricted virtual singular braid .....	...

---

<b>Najib Mahdou, El Houssaine Oubouhou and Ece Yetkin Celikel</b>	
On nonnil- $S$ -Noetherian and nonnil- $u$ - $S$ -Noetherian rings .....	...
<b>Dijana Mosić and Janko Marovt</b>	
Weighted MP weak group inverse .....	...
<b>Reyhan Özçelik, Emrah Evren Kara and Fuat Usta</b>	
Approximation of functions by a new class of Gamma type operators; theory and applications .....	...
<b>Luca Sabatini</b>	
A simplified Proof of the Hopf Conjecture .....	...
<b>Chao Wang, Weiyu Xie, Ravi P. Agarwal</b>	
Quaternion Fractional Difference with Quaternionic Fractional Order and Applications to Fractional Difference Equation .....	...
